

HYDRATRIEVE PACKER

The Hydratrieve Packer is a hydraulic set, mechanically held, single string production packer. Because no tubing manipulation is required to set this packer, the wellhead can be installed and flanged up before setting.

This packer is available with a variety of tubing connections. The packer features a sequential upper slip release system designed to release each slip individually to reduce the pull required to release it. The angles on the upper slips and upper slip body result in the slips releasing smoothly from the casing.

Product Specifications

Casing		Recommended Hole Size (inches)	Tool OD (inches)	Tool ID (inches)	Thread Connections Box Up/Pin Down	Part Number
Size (Inches)	Weight (lbs/ft)					
7	26.0 - 29.0	6.184 - 6.276	6.000	3.875	4-1/2 LTC	91572BHC
