

## WIRELINER ADAPTER KIT – FOR PERMAPAK PACKER

The **Wireline Adapter Kit (WLAK) – for Permapak Packer** is designed to set Permapak Seal Bore Packers with industry standard wireline pressure setting assemblies or comparable equipment.

This setting equipment can also be used with hydraulic setting tools that are configured like the standard setting tool. The setting equipment is designed so the outer sleeve can be adjusted to provide a proper make up to the packer.
